

# Glow-In-The-Dark Safety-Grip™

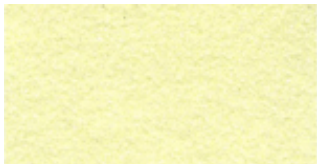

During the daytime Glow-In-The-Dark Safety-Grip™ appears to be a mild green shade, in darkness or any lights out scenario it emits a bright white light. Photoluminescent Safety-Grip™ can be charged by either natural or artificial light sources.

- Photoluminescent base
- Guides personnel during blackouts
- Anti-slip surface

Glow green in low light conditions

## Glow-In-The-Dark Egress Marking Tape

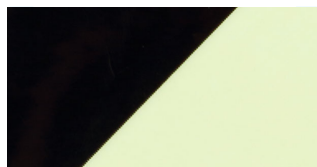

**H8101X**  
White

Smooth photoluminescent tape ideal for outlining doors and skirting/baseboards on escape routes.

- Cost-effective
- Easy to apply

## Glow-In-The-Dark Hazard Egress Marking Tape

**H8101D**  
White/Black

Similar to our Egress Tape but with black chevrons to make the outlined feature more eye-catching in bright conditions.

- Cost-effective, high-contrast photoluminescent marking tape
